

The National Battlefields Commission
Quarterly Financial Report
For the quarter ended December 31, 2013

Statement outlining results, risks and significant changes in operations, personnel and programs

Introduction

The National Battlefields Commission Mandate

The Commission was established in 1908 under the *Act respecting the National Battlefields in Quebec*. The Commission is a departmental corporation named in Schedule II of the *Financial Administration Act*.

The Commission's mandate is to ensure that all the cultural, recreational and natural resources of the Battlefields Park are developed in the best interest of Canadians and that the image of the Government of Canada is strengthened without compromising the historic character of the site. To achieve that goal, the Commission will acquire, preserve and develop the great historic battlefields in Quebec. In addition to Internal Services, the National Battlefields Commission has two program activities: « Conservation and Development » and « Public Education and Services ».

Further information on the mandate, roles, responsibilities and programs of The National Battlefields Commission can be found in the National Battlefields Commission 2012-2013 *Main Estimates*, available on the following website: <http://www.tbs-sct.gc.ca/est-pre/20132014/me-bpd/me-bpd-ENG.pdf> page 238.

This quarterly financial report:

- should be read in conjunction with the 2013-2014 *Main Estimates*, the *Supplementary Estimates (B)*, the *Allocations from Treasury Board Central Votes* and *Canada's Economic Action Plan 2012 (Budget 2012)*;
- has been prepared by management of The National Battlefields Commission as required by section 65.1 of the *Financial Administration Act* and in the form and manner prescribed by the Treasury Board;
- has not been subject to an external audit or review.

Basis of Presentation

This quarterly report has been prepared by management using an expenditure basis of accounting. The accompanying Statement of Authorities includes the Commission's spending authorities granted by Parliament and used by the Commission consistent with the *Main Estimates* for the 2013-2014 fiscal year. This quarterly report has been prepared using a special purpose financial reporting framework designed to meet financial information needs with respect to the use of spending authorities.

The authority of Parliament is required before moneys can be spent by the Government. Approvals are given in the form of annually approved limits through appropriation acts or through legislation in the form of statutory spending authority for specific purposes.

When Parliament is dissolved for the purposes of a general election, section 30 of the *Financial Administration Act* authorizes the Governor General, under certain conditions, to issue a special warrant authorizing the Government to withdraw funds from the Consolidated Revenue Fund. A special warrant is deemed to be an appropriation for the fiscal year in which it is issued.

The Commission uses the full accrual method of accounting to prepare and present its annual departmental financial statements that are part of the departmental performance reporting process. However, the spending authorities voted by Parliament remain on an expenditure basis.

Quarterly Financial Report
For the quarter ended December 31, 2013

Basis of Presentation (continued)

As part of the Parliamentary business of supply, the Main Estimates must be tabled in Parliament on or before March 1 preceding the new fiscal year. Budget 2012 was tabled in Parliament on March 29, after the tabling of the Main Estimates on February 28, 2012. As a result the measures announced in the Budget 2012 could not be reflected in the 2012-2013 Main Estimates.

In fiscal year 2012-2013, frozen allotments were established by Treasury Board authority in departmental votes to prohibit the spending of funds already identified as savings measures in Budget 2012. In 2013-2014, the changes to departmental authorities were reflected in the 2013-2014 Main Estimates tabled in Parliament.

Highlights of fiscal quarter and fiscal year to date (YTD) results

This section highlights the significant items that contributed to the net decrease in resources available for the year and the net increase in actual expenditures for the quarter ended December 31, 2013.

Graph 1 :

Graph 1 outlines the budgetary authorities which represent the resources available for use for the year as of December 31.

Authorities' analysis

As at December 31, 2013, total authorities available for the year were up \$0.041 million from the same quarter of the prior year, from \$9.67 million to \$9.71 million. This increase was due to an increase in the expenditures pursuant to subsection 29.1(1) in the amount of \$0.084 million, a decrease in the operating budget of \$0.016 million and a decrease of the employee benefit plan (EBP) of \$0.027 million.

The variation in the operating budget of \$0.016 million comes from the combination of a reduction in the operating budget in 2012-2013 in the amount of \$729,000, the acceptance in the 2013-2014 Supplementary Estimates (B) of \$660,000 for the redevelopment of Gilmour Hill to permit its year-round opening and the creation of a multi-purpose interpretive trail in Battlefields Park (T.B. 836990) and an allocation from Vote 15 (Compensation Adjustments) in the amount of \$53,192 following the negotiations of the collective agreement.

Budgetary expenditures analysis

Compared to the previous year, total budgetary expenditures recorded at the end of the quarter, ending December 31, 2013 increased from \$6.59 million to \$6.70 million as per the Table of departmental budgetary expenditures by Standard Object. This \$0.11 million increase represents a growth of 2% and is the result of some favourable and unfavourable variances of the last three quarters.

The most important growth relates to *Personnel* (\$382,991) primarily because of the payments of the liquidation of severance pay as outlined in the collective agreement signed October 29, 2012. Moreover, there was an increase in the *Acquisition of land, buildings and works* (\$109,958) due mainly to expenses related to the development of a sidewalk on Taché Street, to the new permanent artifact exhibition at the Discovery Pavilion and to the new heating system of one of the NBC's buildings.

The most significant decrease is in the standard object of *Utilities, materials and supplies* (\$209,430) due mainly to electricity expenses whose repayment came earlier this year and a decrease in maintenance such as the repointing of a stone chimney done last year. In addition, there was a decline in the standard object *Professional and special services* (\$136,155) due primarily to the design and creation of the new exhibition at the Martello tower 1 in 2012-2013 and to the cleaning of the cliff done last year. Moreover, the standard object *Other subsidies and payments* also decreased (\$47,021) as the first disbursement of the payment in lieu of taxes was lower this year.

Risks and Uncertainties

This Departmental Quarterly Financial Report reflects the results of the current fiscal period in relation to the Main Estimates for which full supply was released on June 20, 2013.

Significant changes in relation to operations, personnel and programs

There have been no significant changes in relation to operations, personnel and programs.

Budget 2012 Implementation

This section provides an overview of the savings measures announced in Budget 2012 that are being implemented in order to refocus government and programs; make it easier for Canadians and businesses to deal with their government; and, modernize and reduce the back office.

Budget 2012 announced that the National Battlefields Commission would save \$800,000 (rounded) by 2014-2015, under government initiatives to reduce the deficit.

The National Battlefields Commission
Quarterly Financial Report
For the quarter ended December 31, 2013

Here, more specifically, is how the Commission will achieve the reduction objective and cut its budget by 10% over two fiscal years for a total saving of \$755,000. It is important to note that the Commission will not decrease the services it offers the public. Instead, it is drawing from its capital budget and using the 2012-2013 reorganization to rationalize its workforce.

The decision made in 2012 by the Québec Port Authority to terminate the agreement to operate and run Brown Basin (unrelated to the budget) allows the Commission to shrink its human resources investment there.

The position of development and environment advisor will not be maintained with the incumbent's departure. The currently vacant mason position will not be filled either. Including benefits, savings will be of the order of \$156,000.

A review of certain operating budget items indicates that there is very little flexibility, allowing only for a possible reduction in long-term investment in non-recurring special projects. About \$599,000 will be cut, starting in fiscal year 2013-2014.

It goes without saying that these budget cuts are significant. The Commission wished to limit the impact on employees and the public as much as possible, but various projects, including infrastructure renewal, will have to be spread over a greater number of years. Be that as it may, the Commission is maintaining its objectives with regard to conserving and enhancing its territory. Urgent priority work will go on and an effort will be made to minimize safety risks to users and keep facilities in compliance.
